ZARGES PaxTower S-Plus 1T and 1T – convenient one-click folding scaffold towers.

When you are working at height on scaffold towers, it is essential that they offer stability, secure footing and simple, flexible handling. The new PaxTower folding scaffold unit stands out with a working height of up to 7.65 m as well as three unique features: smooth-sliding guides made of hard plastic for easy connection of push-on end frames, a folding mechanism that can be operated with one hand, and a simple-to-use toeboard unit.

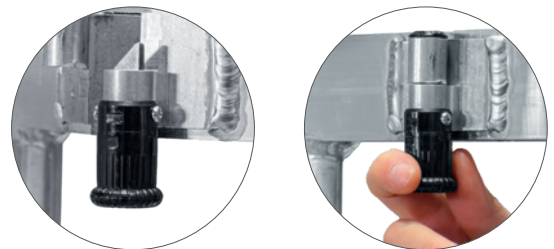

Advantages:

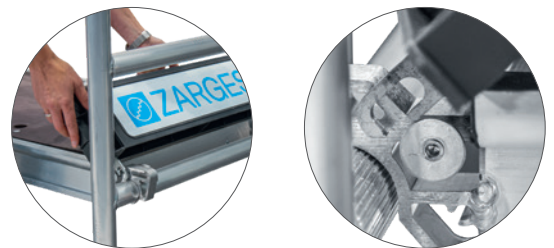

Smooth-sliding guides made of hard plastic:

prevent misalignment when connecting push-on end frames together

One-handed operation of the folding frame featuring a sturdy lock button:

engage or release the lock with simple click

Patented toeboard unit:

quick to install

Moving away from plastic packaging for greater sustainability

During delivery, ZARGES PaxTower components are secured together using straps **without any plastic packaging**.

ZARGES is currently already putting the **EU Circular Economy Package** into action.

This is another step taken by ZARGES towards greater sustainability in its product development and production through adopting **resource-efficient processes** and creating **durable products**.

PaxTower S-PLUS 1T – with advanced guardrail in compliance with the new EN 1004.

Advantages

- Safer and quicker assembly and dismantling due to advanced guardrails and platforms at intervals of 2 m.
- One-handed operation of the folding frame featuring a sturdy lock button: engage or release the lock with simple click.
- Patented toeboard unit: quick to install.
- Smooth-sliding guides made of hard plastic: prevent misalignment when connecting push-on end frames together.

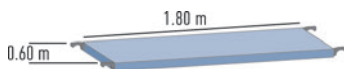

Technical data

- Scaffolding length: 1.80 m; scaffolding width: 0.72 m.
- Scaffolding Category 3 (load capacity of up to 200 kg/m²) according to the new EN 1004.
- 125 mm swivel castors with brake; the castors can be fitted with castor adapters (order no. 42974) to allow for height adjustment.
- Stile and rung diameter 45 mm.
